MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry Structure and Development:

The government is supporting the domestic equipment manufacturing industry and growth of indigenous technology. In partnership with industry, it is building a conducive ecosystem to boost the equipment-manufacturing sector that can compete with the best in the world. With the above initiatives India is expected to be a manufacturing hub for IT and telecom equipments including mobile accessories.. With elevating popularity for smartphones and other mobile devices in the country, there is also increasing demand for mobile accessories. The size of the market for mobile accessories is about Rs 1,500 crore, according to industry estimates. With Government incentives to promote large scale manufacturing in India, this is the best time for mobile phone accessory companies to establish manufacturing units in India.

2. Segment Wise Performance:

The company is currently operating in a single segment i.e selling and distribution of mobile phones and accessories.

3. Future Plans and Outlook:

Mobile accessories market in India does not have a single brand which makes all accessories. The Company's brand "VG" would be one of the early mover advantage. The Company will use direct sales and sales through internet route to sell all mobile phone accessories.

The Company will continue to work on senior citizen phone in both hardware and software segment. It is planning to develop a senior citizen application on different operating system

4. Business operations

The Company has made revenue of operations of Rs. 67.36 (in '000) in the financial year as compared to Rs. 88.72 (in '000) last year . The Company has designed mobile phone accessories

like Chargers, Adopters, Power bank, Pen drive and have refined 5.5 design house based out of Paris, France and Sohamsaa Systems Pvt. Ltd based out of Bangalore, India for designing. The Company made prototype of the charger and is in final stage before mass production. The product would get launched in the 3rd quarter of the current financial year under the brand 'VG'. The Company has also applied three patents for Socket Charger, Hybrid Charger, Normal & fast charger with switch.

The Company filed civil and criminal cases against Kingtech Electronics (India) Pvt Ltd for money recovery. Madras High Court on 23rd July 2013 allowed the application No.3060/2012 made by MCL against Kingtech Electronics (India) Pvt Ltd and order restrains Ganishee HSBC Bank Ltd from making payment to Kingtech Electronics (India) Pvt Ltd to be extent of suit claim amounting to Rs.51,38,776/-.

The Company has also made a claim of Rs. 2,28,22,324/- towards damage.

With respect to its own brand 'MUNOTH' the Company is exploring the possibility of re launching Senior Citizen phone and other application based phones

5. Strength and Weakness

The demand for handset market is huge and the government support to domestic manufacturing industry will strengthen the industry. Mobile device adoption amongst youth population in the country and continual decline of prices of mobile phones, smart phones and tablets are the impetus to the growth of mobile accessory market in India. Online retailing also plays a big part. It offers the convenience of cash-on-delivery payment option and cheaper offers for various products as compared to physical stores.

The mobile handset industry is facing problems relating to high service cost, expensive infrastructure and government regulations. There is a huge disparity in the mobile accessory market with several players competing for market share owing to Chinese manufacturing infrastructure

6. Opportunities and Threats:

Mobile accessories are also considered a style statement today and brands are focusing on making them trendy and attractive and there is no single brand available in India which manufactures all mobile phone accessories.

Low-cost manufacturing and parallel imports have led to the advent of a huge unorganised market, the size of which is estimated at about 60 per cent.

7. Outlook, Risks and Concern:

Rise in disposable income has revolutionized customers buying and spending trend, especially in the urban areas. Mobile device adoption amongst youth population in the country and their spending patterns provide strong stimulus for growth in adoption,

Smart phone and tablet adoption in rural areas is still low largely due to budgetary constraint and low adaptability to complicated devices. More of India's population resides in rural areas and majority of the wireless consumers there use only basic mobile phones, In such as situation, mobile accessory companies have to be largely dependent on the urban and suburban consumption.

8. Human Resources/Industrial Relations:

Your Company considers its Human Resources as its most valuable asset among all their assets of the Company. It has been the policy of the company to promote the talent by providing opportunities to develop themselves within the organisation. The Company continued to maintain a cordial and harmonious relation with its employees.

9. Internal Control System and Adequacy:

Your Company lays emphasis on integrated control systems and accountability and has been maintaining adequate system in place commensurate with its size and nature of business.

10. Cautionary statement:

Statements in the Management Discussion and Analysis regarding the Company's objectives, estimates and expectations are within the scope of applicable laws and regulations, Actual performance may differ from those either expressed or implied.
